Good morning! I just checked the extranet, and there's a new-ish document on there – it was uploaded before last week's meeting, but something went wrong with the upload so we couldn't view it. They've now re-uploaded it. It's a matrix of CA comments on the 2013 Draft FA, and PacRim's responses. It's attached here, and is on the extranet under Documents -> Environmental Baseline Studies -> Vegetation and Wetlands -> Functional Assessment -> FA_Dec2014 -> CA_Comments_onSept2013FA.
